Dear Workshop Participant,

In order for you to get the most from your workshop, I've included a schedule of events that commonly occur during a typical weeklong workshop.

Typical Weekly Ceramic Workshop Calendar

Sunday arrival is followed by dinner in our café at 6 PM. This is an opportunity to meet fellow students, faculty and staff.

Monday morning begins with a formal welcoming by Ranch staff at 8:45 AM in the meeting hall. During this 15-minute introduction, you will meet the Ranch administrative staff and be introduced to the faculty on campus that week. Immediately following the general orientation, there will be a brief workshop orientation in the Soldner or Long Ceramic Studio. Our facilities are available 24-hours-a-day and are staffed Monday to Friday 9 AM – 5 PM and Monday to Thursday 7 – 10 PM.

Most workshops meet weekdays from 9 AM – 5 PM with a one-hour break for lunch. Activities may include lectures, slide talks, demos, field trips, individual assignments, studio work and individual and group critiques.

Slide presentations by visiting faculty are scheduled Sunday and Tuesday evenings at 7 PM and some Wednesdays at noon. Attendance is encouraged but not mandatory.

Your workshop may coincide with a Thursday evening or Friday afternoon Auctionette, held several times each summer. This exciting lunchtime event auctions work by students and faculty alike. Proceeds fund programming at Anderson Ranch. All students are welcome to contribute a piece of work.

On Friday afternoon, all studio work ends and students pack up tools and clean their personal studio spaces. At 3pm Millennium Pack and Ship arrives to receive packages to be shipped home. AT 5pm the studio is to be cleared and preparation for the next workshop begins.

Again, this is a general template—each workshop has its own requirements and dynamics that necessitate changes in this overview.
